Expert advice is important for making the right decisions. I love buying this machine. thanks for the hero atleast came up with a clean off-roader.. You could still work on the back of mud guards look.. As a hero he is lazy in presenting new designs. It always represents the same stereotypical engines.. Now the youngsters are calling to look at it. expecting a lot of refinement in the engine with all the off road features of Rockrock. Xpulse200????? So.. very nice mighty bike.. very comfortable. Nice suspension. It's the first headlight. amazing ride .. top-notch experience ever.. enjoyed a lot. 100 out of 100 better than any bike. Great looks? I buy this hero xpulse 200fi on 18 December 2019. and I have to face more battery-related problems . My battery is low, and I don't even start on self-start.. so I have to use kick. I also give the complem to the trader they are very rude behavior towards the guest . Then after multiple fucking decisions they put the battery on for replacements after 10 days the problems start anew . That day I went to the showroom and shows my bike again on the service supervisors saying to tumari bike jaada nhi chalti isiliye ye problems hota hai ... jab tumari battery he low hogi tho bike kaha se chalo mai.. about the bike is best, but the service saff is very rude behavior towards hero guests. The guy from the salon insisted on getting a 200T, but got 200Fi. Since this is my first bike I can not comment as a professional, but that everything is very comfortable and the suspension is so smooth. I sat like Pelion too, and in the FI variant there is already thermal protection on the silencer so there is no problem. I love this bike and it's much better than the 200T. I bought xpulse 200 fi off road 3 months ago,the overall feature is good, but when you go nonstop 100 km, on the engine get a burning smell, because - it's an air-cooled engine, please upgrade and add to the liquid cooler, otherwise total your very good brakes, swearing is awesome, comfort riding, I don't check the mill yet,, my bad feeling is the air cooler engine . the maximum top speed is 130.
